Problem is Two-Fold

Patrons have difficulty finding resources or are unaware of services

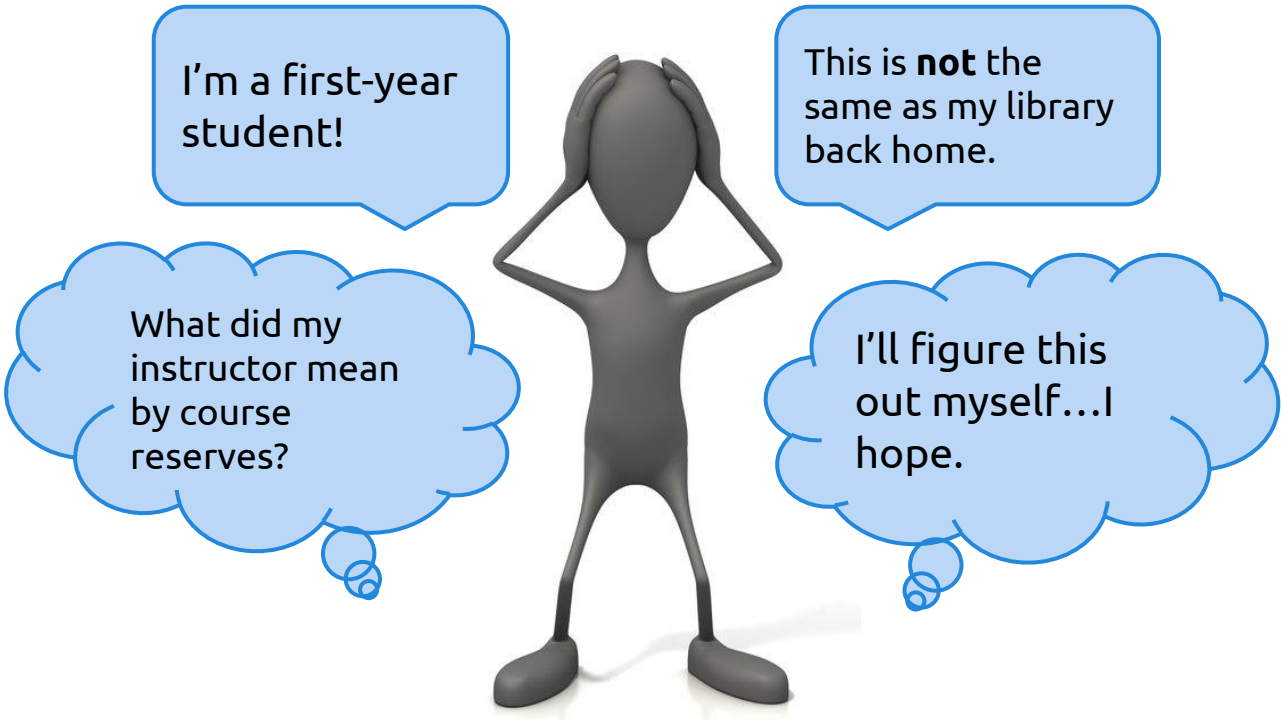
Librarians answer many directional queries

There is one solution...

SignWave Solves These Problems

SignWave offers low-cost, interactive digital signs that guide library patrons and liberates librarians from answering common questions.

Demonstration



The typical bewildered first-year student, circa all times

Business Model

Free	Signs-as-a-Service
Buy off-the-shelf parts and use our free software **Buy our ready kit (web server, webcam, brackets)**	**Subscription pricing** **Hosting of your signage software and content** **Technical support**
